Chair of Committee Signature: _____

Next Review: Spring Term 2024

ANNUAL REVIEW

1) Staff and Volunteers

Child Safeguarding Statement

Staff need to ensure that there may be issues relating to a child's behaviour as a result of safeguarding or child protection issues. Where staff have any concerns of this nature the agreed steps outlined in the school's 'Safeguarding and Child Protection Policy' should be followed.

School Policy

Technology is an integral part of the lives of children and young people in today's society, both within schools and in their lives outside school. The internet and other digital information and communications technologies are powerful tools, which open up new opportunities for everyone.

These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. All users should have an entitlement to safe internet access at all times.

This Acceptable Use Policy is intended to ensure:

- That staff and volunteers will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- That school ICT systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- That staff are protected from potential risk in their use of ICT in their everyday work.

The school will try to ensure that staff and volunteers will have good access to ICT to enhance their work, to enhance learning opportunities for *students / pupils* learning and will, in return, expect staff and volunteers to agree to be responsible users.

Acceptable Use Policy Agreement

I understand that I must use school ICT systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the ICT systems and other users. I recognise the value of the use of ICT for enhancing learning and will ensure that students / pupils receive opportunities to gain from the use of ICT. I will, where possible, educate the young people in my care in the safe use of ICT and embed e-safety in my work with young people.

For my professional and personal safety:

- I understand that the school will monitor my use of the ICT systems, email and other digital communications.
- I understand that the rules set out in this agreement also apply to use of school ICT systems (eg laptops, email, VLE etc) out of school.
- I understand that the school ICT systems are primarily intended for educational use and that I will only use the systems for personal or recreational use within the policies and rules set down by the school.
- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.

I will be professional in my communications and actions when using school ICT systems:

- I will not access, copy, remove or otherwise alter any other user's files, without their express permission.
- I will communicate with others in a professional manner, I will not use aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will ensure that when I take and / or publish images of others I will do so with their permission. Images taken on non-school equipment should only be downloaded using school equipment and then deleted from the original device. I will not use my personal equipment to record these images, unless I have permission to do so. Where these images are published (eg on the school website / VLE) it will not be possible to identify by name, or other personal information, those who are featured.
- I will only use chat and social networking sites in school for personal use. Information shared should never compromise the school's duty to provide the highest possible standard of education or bring the school's reputation into disrepute. Staff who have genuine concerns about any school matter should follow school current guidelines and policies e.g. whistle-blowing to resolve issues and not networking sites. Staff should report all contacts through networking sites which may concern them to the headteacher. Examples may include: child below 13 on Facebook requesting to be a friend or inappropriate comments by a parent directed to themselves.
- I will only communicate with students / pupils and parents / carers using official school systems. Any such communication will be professional in tone and manner.

- I will not engage in any on-line activity that may compromise my professional responsibilities.

The school and the local authority have the responsibility to provide safe and secure access to technologies and ensure the smooth running of the school: Where permission needs to be sought please see the headteacher.

- When I use my personal hand held / external devices (PDAs / laptops / mobile phones / USB devices, tablets etc.) in school, I will follow the rules set out in this agreement, in the same way as if I was using school equipment. This includes downloading photographs on school computers. I will ensure that any such devices are protected by up to date anti-virus software and are free from viruses.
- I will not use personal email addresses on the school ICT systems for pupil's personal data.
- I will not open any attachments to emails, unless the source is known and trusted, due to the risk of the attachment containing viruses or other harmful programmes.
- I will ensure that my data is regularly backed up, in accordance with relevant school policies.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering / security systems in place to prevent access to such materials.
- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on a machine, or store programmes on a computer, nor will I try to alter computer settings, unless this is allowed in school policies.
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will only transport, hold, disclose or share personal information about myself or others, as outlined in the School / LA Personal Data Policy.
- I understand that data protection policy requires that any staff or student / pupil data to which I have access, will be kept private and confidential, except when it is deemed necessary that I am required by law or by school policy to disclose such information to an appropriate authority.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.

When using the internet in my professional capacity or for school sanctioned personal use:

- I will ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).

I understand that I am responsible for my actions in and out of school:

- I understand that this Acceptable Use Policy applies not only to my work and use of school ICT equipment in school, but also applies to my use of school ICT systems and equipment out

of school and my use of personal equipment in school or in situations related to my employment by the school.

- I understand that if I fail to comply with this Acceptable Use Policy Agreement, I could be subject to disciplinary action. This could include a warning, a suspension, referral to Governors and / or the Local Authority and in the event of illegal activities the involvement of the police.

I have read and understand the above and agree to use the school ICT systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.

2) Pupils

Daisyfield Primary School is committed to safeguarding and promoting the welfare of children. All pupils use computer facilities including Internet access as an essential part of learning, as required by the national curriculum, therefore, gaining pupils' agreement to e-safety rules is important.

This is to be obtained through parents on admission and again when children enter Key Stage 2. To ensure clarity, the e-safety Rules appropriate to the age of the pupil will be displayed in every classroom and also feature as part of the ongoing e-safety work in school.

A list of pupils whose parents have not consented for Web publication of works and photographs and for internet access will be held in the office for staff to refer to when appropriate.

Please also refer to the Remote Learning Policy and Online Safety Policy.

EYFS Acceptable Use Policy

Staying safe whilst using the computer

To help me stay safe on the computer...

I will only use a computer when an adult tells me I can.

I will tell an adult if I see something on the computer that makes me unhappy.

School Policy

Digital technologies have become integral to the lives of children and young people, both within schools and outside school. These technologies are powerful tools, which open up new opportunities for everyone.

These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe internet access at all times.

This Acceptable Use Policy is intended to ensure:

- that young people will be responsible users and stay safe while using the internet and other digital technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.

The school will try to ensure that pupils will have good access to digital technologies to enhance their learning and will, in return, expect the pupils to agree to be responsible users.

Parent / Carer Signature

As the parent / ~~carer~~, I understand that the school has discussed the Acceptable Use Agreement with my son / daughter as part of whole school commitment to online safety both in and out of school.

I understand that the school will take every reasonable precaution, including monitoring and filtering systems, to ensure that young people will be safe when they use the internet and ICT systems.

I also understand that the school cannot ultimately be held responsible for the nature and content of materials accessed on the Internet.

I understand that my child's activity on the ICT systems will be monitored and that the school will contact me if they have concerns about any possible breaches of the Acceptable Use Policy.

I will encourage my child to adopt safe use of the internet and digital technologies at home and will inform the school if I have concerns over my child's online safety.

KS2 Acceptable Use Policy

Staying safe whilst using the computer

To help me stay safe on the computer...

I will ask permission before using the Internet and use it for a specific purpose.

I will never share my personal details, such as my full name or address, with people I don't know.

I will never share my password with anyone.

I will never meet up with someone I have met on the Internet.

I will always check my messages are polite before I send them.

I will not reply to a message that isn't kind, but I will save it and show it to an adult.

I will not open or download a file unless I am sure it is safe.

I know I should not believe everything I read on the Internet.

I will always tell an adult if something on the Internet makes me or my friends unhappy.
