

			<p>represent the countries. Pupils learnt about the Commonwealth Games and about some of the countries that form part of the Commonwealth. We also shared with the children that they are known as the "friendly games" and that it was important to be fair in sport and support other athletes. Pupils responded well to this and staff witnessed lots of super examples of good sportsmanship with some children receiving the "encouragement value" school band. The sports day involved all pupils taking part in heats, with a competitive element to gain points for their houses. The sprint final took place in front of the whole key stage at the end. Prizes were given out first, second and third places in each event and all children received a certificate for participation.</p>
